## Education

Educating Texans is a priority. Education is not just an investment in the future—it ensures that we will have a future. From one-room schools to the deck of a shrimp boat, from Grandpa's knee to graduate school—Texans keep learning and striving to make themselves and their world just a little bit better. It is our duty and our responsibility and our privilege.

*First school in Crosbyton, built in 1908—Miss Lucille Staleup was the teacher.*

*The Bordovitz school, a German Protestant school in Fayetteville*
